

Sanjay Kumar M

Software Engineer II — Full Stack

sanjuny07@gmail.com | 9048780159 | Noida, UP | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building and maintaining production SaaS and B2B travel applications. Proficient in React.js, Next.js, TypeScript, Node.js, NestJS, Java, and PostgreSQL, with experience developing multi-tenant platforms, REST APIs, third-party integrations, and real-time applications. Experienced in production debugging, application deployments, and migrating legacy applications to modern frameworks. Uses AI-assisted development tools such as Cursor, ChatGPT, and Claude to accelerate debugging, code analysis, refactoring, and development workflows.

SKILLS

Languages: TypeScript, JavaScript, Java, SQL

Frontend Development: React.js, Next.js, Angular, HTML, CSS, Tailwind CSS, Ant Design

Backend Development: Node.js, Express.js, NestJS, REST APIs, WebSockets

Databases: PostgreSQL

DevOps / Cloud: AWS, Docker, Nginx, GitLab CI/CD

Practices: Multi-tenant SaaS, RBAC, Microservices, B2B Integrations, Production Debugging, Git

AI-assisted development: Cursor, ChatGPT, Claude - debugging, code analysis, refactoring

PROFESSIONAL EXPERIENCE

Full Stack Developer | Opskube

Mar 2023 - Present

- **Architected** SysTacc (Ongoing): Develop and maintain full-stack features for SYSTACC, a multi-tenant travel accounting SaaS. Next.js/React (TypeScript) frontend and Node.js/NestJS-Express APIs on PostgreSQL, including migration from legacy Angular/React client
- SysTacc: Ship and iterate transaction, ledger/GST display, reporting, and banking UI features (flight-heavy, plus hotel/visa and related vouchers) in a tenant-aware, RBAC app with financial-year scoping
- SysTacc: Debug and fix production issues across invoicing/GST/e-invoicing-related flows, activity/audit trail, and GST-P&L mismatch handling; support GitLab CI and Docker release
- Aadesh Travels (Ongoing / Parallel): Maintain and enhance a B2B travel platform across Flights, Hotels, Cars, and Insurance
- Aadesh Travels: Migrate UI to Next.js and extend NestJS/Java services; resolve production issues and handle deployments
- Aadesh Travels: Integrate flight suppliers including Sabre, IndiGo, SpiceJet, and AirAsia
- Aadesh Travels: Implement Hotel module (Next.js + Java/NestJS) with Rezlive; integrate Cars (Savaari) and Insurance (Asego)
- Aadesh Cabs (Ongoing / Parallel): Designed and developed the Java backend for a ride-sharing platform (fare calculation, wallet, referral/promocode)
- Aadesh Cabs: Built admin dashboard with Refine (React) and NestJS; implemented real-time driver notification APIs

- Aadesh Cabs: Exposed REST APIs for payments, location tracking, and user management in a microservices setup; collaborated with Flutter frontend team
- Catapulto (6 months): Refactored legacy React class components to functional components; integrated Yandex Maps for courier tracking and SEO improvements

Full Stack Developer Intern | Brototype

Apr 2022 - Feb 2023

- Developed full-stack web application features using React.js and Node.js, working across frontend components and backend REST APIs.
- Built interactive application functionality using Redux for state management and real-time communication patterns for responsive user experiences.
- Integrated frontend and backend services through REST APIs, gaining hands-on experience with full-stack application development and debugging.

EDUCATION

Master of Computer Applications (MCA) , Amman College of Arts & Science, Erode, Tamil Nadu	Aug 2024 - Apr 2026 · Distance Education
Bachelor of Computer Applications (BCA) , Hindusthan College of Arts and Science, Coimbatore, Tamil Nadu	Aug 2018 - Apr 2021
Higher Secondary Education – Computer Science , Kannadi Higher Secondary School, Palakkad, Kerala	Jun 2016 - Apr 2018

LANGUAGES

English (Professional Working Proficiency), Malayalam (Native), Hindi (Fluent), Tamil (Professional Working Proficiency)
